ISSUES 72
INFORMATION CONCERNING

On [redacted] ASAC [redacted] Seattle Division, viewed a television show "ISSUES 72" on Channel 4, KOMO TV, Seattle. A comment was made on this show concerning the whereabouts of D.B. COOPER and additional comments were made concerning the handling of recent hijackings by the FBI.

To determine exactly what these comments were, SA [redacted] was assigned to view a videotape of the above described TV show on 12/1/72.

The show "ISSUES 72" consisted of an interview by KOMO TV news personnel with [redacted] Western Airlines Pilot and [redacted] of the Airline Pilots Association (ALPA) and [redacted] a Northwest Orient Airline pilot. [redacted]

The comment concerning COOPER was made by [redacted]. He was asked if he would care to comment on the whereabouts of "D.B. COOPER." He replied that he would not.

The comments concerning the handling of recent hijackings by the FBI were made by [redacted] and they consisted of basically [redacted] view that "violence breeds violence." [redacted] stated it was his opinion that no outside interference should be undertaken without the pilot of the hijacked plane's approval. [redacted] mentioned one exception to this rule, which he stated would be a case when a hijacked plane was forced to land in a foreign country. [redacted] did not further describe the situation.

Both [redacted] and [redacted] advised that ALPA is presently meeting in Las Vegas, Nevada. The purpose of this meeting is to determine what action should be taken by ALPA if the airlines fail to provide additional crew training and airport security.

[redacted] was asked to comment on the role of the FBI in hijackings to date. He stated he would like to have police at the airports that are under the jurisdiction of the FAA rather than have the FBI "gun down our planes." [redacted] further stated that it was his opinion that the Department of Justice should make available every convicted hijacker for psychiatric study.

b6
b7C

[redacted] was asked if he thought the sentences being handed out to convicted hijackers were satisfactory. His reply was that some were not satisfactory. [redacted] expressed a fear that the "MAFIA" might become interested in hijackings for profit and stated stiff sentences must be implemented to "deter them people."

Re Bureau airtel, 11/13/72, to Seattle.

On 11/30/72, revised color sketches were displayed to [redacted] Stewardess, Northwest Airlines (NWA), who was aboard Flight 305, 11/24/71; and she advised it is an excellent general likeness of Unknown Subject. This sketch is identified as "B" and dated 11/10/72. She stated the only suggestion she would have is that the nose should be slightly smaller and not as rough or lumpy looking. She also stated that the mouth of the individual she observed on this flight did not appear quite as full, in other words, was "a older looking mouth". She indicated she would define "older mouth" as being very slightly wrinkled around the lips and not having as full an appearance in the lips.

b6
b7C

[On 12/1/72, [redacted] NWA, Stewardess, who was also aboard Flight 305, stated that she believed sketch "B" is more similar to the appearance of Unknown Subject than the earlier black and white and colored sketches. She stated that in her opinion, however, [the current sketch was not a vivid presentation of the appearance of Unknown Subject.] She did note that she observed the Unknown Subject from the side and never did see a full-face view of him.] R

The following background information is being provided receiving offices in order to facilitate their investigation:

On November 24, 1971, UNSUB, aka DAN COOPER, hijacked a Northwest Orient Airlines Plane and parachuted into an area east of Woodland, Washington. On the assumption that UNSUB may have made a long-distance phone call from a pay telephone booth, all the pay telephone booths in the Woodland, Washington area have been checked for long-distance calls made on November 24, 1971, and November 25, 1971.

The receiving offices are requested to obtain the subscribers' names to those telephones in their areas and forward the names to the Seattle Division. Seattle will compare these names against those contained in the Norjak indices. Later a request will be made to obtain driver's license photographs of some of the subscribers.

[redacted] originally suggested as a suspect by an individual identifying himself as [redacted] telephoned the Spokane RA on January 4, 1972, and confided that a woman friend he has known for five years suspects [redacted] of being identical with unsub.

At 2:35 PM, today SRA THOMAS J. MANNING, Longview RA, telephonically contacted the writer and furnished the following information:

At approximately 2:20 PM today SA MANNING received an anonymous call at the Longview RA from an individual who according to MANNING, spoke as an intelligent individual. This person asked MANNING what the reward in the "D.B. COOPER" case amounted to. MANNING related what the reward in this case is, whereupon the caller stated, "That's not enough" and hung up.

At approximately 2:23 PM, the same individual re-contacted MANNING at the RA and stated that he has observed the lower portion of a human body hanging from a parachute stating that he can see this through binoculars from his residence. SA MANNING encouraged the caller to give him more information but the caller refused to say anything more except that he would be into the Longview RA in about an hour and a half with some physical evidence in the captioned case.

I asked MANNING if he had any idea who the caller might be and MANNING said his voice sounds familiar. Further that the caller stated he knows MANNING by sight and in fact has been interviewed by MANNING in the RA.

SA MANNING was relating the above information to me in the event this materializes and it is necessary to saturate the area with Agent personnel for a search of the terrain.

SUBJECT: NORJAK

Re telephone call from SAMANNING to ASAC [redacted] 12/12/72

b6
b7C

Referenced phone call concerned an unknown subject who telephonically contacted Longview RA and furnished information that he knew where NORJAK subject was located.

[redacted] came to the Longview RA early evening X of 12/12/72 and advised he was person who had called RA that afternoon. He was intoxicated at the time he spoke with writer and his story was extremely disjointed and inconsistent. He spoke about a white "chute" with something hanging from it from two shroud lines. When asked where he got the information he stated about 25 of his friends have seen it and have been making fun of it as being the hijacker. He admitted he was drinking with several of these friends today and stated today was the first time he had actually heard about it and seen it. Then in almost the same breath he stated he couldn't see it because of the snow cover. He also stated that his union representative [redacted] is the X hijacker for he was missing the night of the highjacking and has had free fall training at an airport near Hillsboro, Oregon. [redacted] is described as WMA, 5'10". slim build. blonde hair. starting to go bald, 160-150 pounds. [redacted]

ALCOHOLIC

b6
b7C

He then stated that a friend [redacted], one [redacted] X WMA, dark hair, slim build, 140 pounds, 5'6" - 5'7" is the hijacker for he has been missing since the time of the hijacking. He also stated a [redacted] was the hijacker. X

[redacted] is in Seattle indices [redacted] matter which took place in Longview about three years, ago. He is also known to the writer as an alcoholic and an easily lead individual. It is also recalled that one night he was fleeing from WSP on IS5 and picked up a hitchhiker who later advised local authorities that [redacted] had large paper sack full of \$20 bills and this was told to him by [redacted]. This was about the time of the hijacking itself.

b6
b7C

b6
b7C

It is felt that a person of [redacted] mental condition and general stupidity can not be looked upon as a person whose story as set forth above should be given any credence. Therefore no further action is recommended in this matter.

SUBJECT: NORJAK

Re memo of Special Agent THOMAS J. MANNING dated 11/17/72.

AT FORT LEWIS, WASHINGTON

On 11/28/72, [redacted] Headquarters, 9th Infantry Division, advised that as a result of the various claims that occurred from the activity of the third armored cavalry Division he had been in contact with the United States Army Claims Service, Fort George Meade, Maryland, who in turn had contacted the Department of Justice in Washington D.C. which resulted in the following as the procedure in handling the above claims:

Because of Posse Comitatis the Army felt that they could not pay the claims as there was some question whether they should have been involved in the search activity. They agreed, however, to receive all of the claims, negotiate for a settlement, and upon determining the amount involved would notify the Justice Department who would pay the claim.

He advised, however, that he had not received a claim from [redacted]

[redacted] He stated, however, that in view of [redacted] letter there would be less delay if he would contact the Corps of Engineers himself and see if they would not rectify the wrong presented by [redacted] without a formal claim.

On 12/6/72, [redacted] telephonically advised that the Corps of Engineers was receptive to sending a grader to the [redacted] property and he felt that the arrangements could be made within the next two weeks. He will continue to pursue this matter.

WEEKLY SUMMARY

As the result of the Seattle file review currently in progress, the following investigation has been initiated:

On the premise that unsub parachuted successfully into the previously calculated area of southwest Washington, it is speculated he would have buried the money and his parachute and then hiked to the nearest road or highway. From there, he would most probably have walked to the nearest phone booth and called a friend or relative for the purpose of being picked up.

Based on the above, all the pay phones surrounding the calculated drop area within reasonable walking distance, i.e., 15 miles, are being checked for long distance phone calls made during the evening of 11/24/71 and on the morning of 11/25/72.

On December 18, 1972, SA [redacted] received an anonymous telephone call from a male inquiring as to the amount of the reward for the return of the D. B. COOPER ransom money. He was advised of the amount as well as the fact that the reward would vary with the portion of ransom money recovered. The individual then said "that don't sound like enough," and hung up.

The above information is being provided for information purposes only. It is SA [redacted] opinion that the individual who called quite possibly was not the hijacker because of his use of poor English and obvious lack of a formal education.

SUBJECT: NORJAK

Sub M

During the trial of [redacted] and [redacted], it was necessary to testify that a microfilm had been prepared of the ransom money paid to the hijacker of Northwest Airlines Flight 305. In tracing back the preparation of the microfilm, the following information was revealed:

Through [redacted] Seattle-First National Bank, it was learned that the actual microfilming of the money was done by their employee, [redacted] who can be located at telephone number [redacted] *MICROFILMED RANSOM MONEY*

On December 14, 1972, [redacted] advised that the money was microfilmed on a Recordak Model RW600, by [redacted]. He advised that the machine normally takes both the front and back sides of the document but in the case of the filming of the money, they blocked out the back of the bill as well as one half of the front side.

At issue in the testimonies of [redacted] was whether or not there could be some distortion in the numbers of the bills due to the fact they were taken at an angle. [redacted] who is familiar with these machines, stated that although a series of mirrors is used to record the images of the checks or money, the surface of the document must be square to the film plane. Therefore, he advised there is no angle and no known distortion.

[redacted] X

The following investigation was conducted on 12/26/72 at the Seattle-First National Bank, 2010 N.W. Market Street, Seattle, following receipt of information from Seattle PD that two unknown suspects, a male and female, had just exchanged a total of 95 twenty dollar bills, some of which were identical to the serial numbers listed in the PINAP ransom list:

On 12/26/72, [redacted] Seattle, [redacted] S.W. Police Dept., home address [redacted] Seattle, home phone [redacted] P.D. phone [redacted] advised he is employed by the S.P.D. and works from 7:00 PM until 3:00 AM. He was off-duty, awaiting his shift, and was located in the parking lot of the above-named bank shortly after 3:00 PM when one of the bank's [redacted] came out of the bank and advised him that a suspicious man was in the bank exchanging a large number of twenty-dollar bills for 100-dollar bills. [redacted] went into the bank and talked shortly with bank [redacted] who advised him that the suspects, a male and female, had come into the bank and acted suspicious so the bank camera was activated. She stated that the male had a very large roll of twenty dollar bills which he was exchanging for one hundred dollar bills. [redacted] observed the two suspects exchanging the bills and then followed them out of the bank and observed them enter a nearby Washington Federal Savings and Loan bank. [redacted] followed them in and talked with [redacted] who told him that the suspects came into the bank asking to exchange \$20's for \$100's. [redacted] told them that the bank would not be able to help them and referred them back to the Seattle-First bank.

b6
b7C

[redacted] then followed them back to the Seattle - First bank where the suspects again engaged the tellers to exchange more \$20's. The suspects then departed the bank, with [redacted] following, and the male got into [redacted] license [redacted]. The female left, on foot, and the male drove off. [redacted] went back into the bank and again talked with [redacted]. She stated at that time that some of the bills exchanged

by the two suspects were checked against the list of ransom bills used in the PINAP case. She also showed him a bulletin put out by Seattle-First National Bank regarding the PINAP case and listed the ransom bills paid in that case.

Shortly thereafter, [redacted] came to the front entrance to the bank and told [redacted] that the two suspects were seen heading toward what he believed to be the [redacted] located nearby.

[redacted] stated he would check [redacted]. He did and found that the suspects were not there. Walking further down the block [redacted] spotted the suspects in a grocery store and returned to [redacted] to advise him of this fact.

[redacted] went to the grocery store and talked to [redacted] (LNU) who told him that the suspects had already made one purchase and used a \$20 bill to make the purchase. [redacted] took the bill and, when the two suspects exited the store, he drew his gun and told them to put their hands up on the wall. that they were under arrest for [redacted]. At that point the male suspect turned toward the female suspect and stated, "Gee, I'm sorry about this, honey." [redacted] then patted them down and escorted them to the police car.

A subsequent check of the bills passed by the two suspects at the bank and comparison with the FBI ransom list used in PINAP revealed that none of the bills passed were listed in the list of ransom bills. The comparison was made by SA [redacted] SA [redacted] and SA [redacted]

At 1 p.m. November 24th, a man identifying himself as "D.B. Cooper" parachuted from a Northwest Orient Airlines 727 jetliner between Seattle and Reno Nevada with a parcel containing 10,000 twenty dollar bills which was the ransom money that had been delivered to him while he held the plane's crew hostage at the Seattle-Tacoma International airport.

The F.B.I. and other state and local law enforcement agents assisted by companies of G.I.'s from Fort Lewis have futilely wasted many hours and thousands of taxpayers dollars looking for cooper.

So far Cooper has successfully eluded his following in the same ingenious manner that he pulled off his skyjack caper, coolly staying a safe distance away from danger.

The F.B.I. headquarters in Seattle has vowed to scrutinize every foot of land between the Sea-Tac airport and no to turn up clues in the case.

Despite rewards of 5,000 dollars by the Medias "Fink on your Friends" programme the public has generally granted Cooper adoration and somewhat a hero status.

An anonymous interviewer from the twice weekly newspaper the "Seattle Flag" has produced a story from a tape interview with D.B. Cooper which is validated by the presentation of one of the recorded twenty dollar bills included in the ransom money.

This story was run in the "Flag" because the interviewer was unable to send it to the "Post-Intelligencer" because they had the 5,000 dollar reward out for Coopers head also television stations would have requested a tape from which voice prints could possibly be produced. Therefore, running the story in the Flag was the only solution.

Cooper said that the witnesses description were off by about fifteen pounds and a couple of inches. Also that the artist's impression were very poor. When asked why he was still in Washington state he added that he felt it was safer to hide where no one would imagine him to be rather than to go to some place like Mexico or South America where the authorities would naturally expect him to go.

He said he started actual work on his skyjacking plan last June. The idea had come to him while he was watching T.V. He figured that skyjackers before him had been fools - with their hijacking planes to go to Cuba, while risking the death penalty when all they had to do was charter a boat or go to Mexico and take a plane from there!

He stated that he did it for the money, realizing that the answer was not merely how to get it but rather how to get away with it. After making extensive preparations he destroyed hundreds of timetables, graphs, aircraft floor plans, weather reports and pages of notes. He felt

TAKE THE MONEY AND JUMP

that he had done enough preparations to be worth 200,000 dollars.

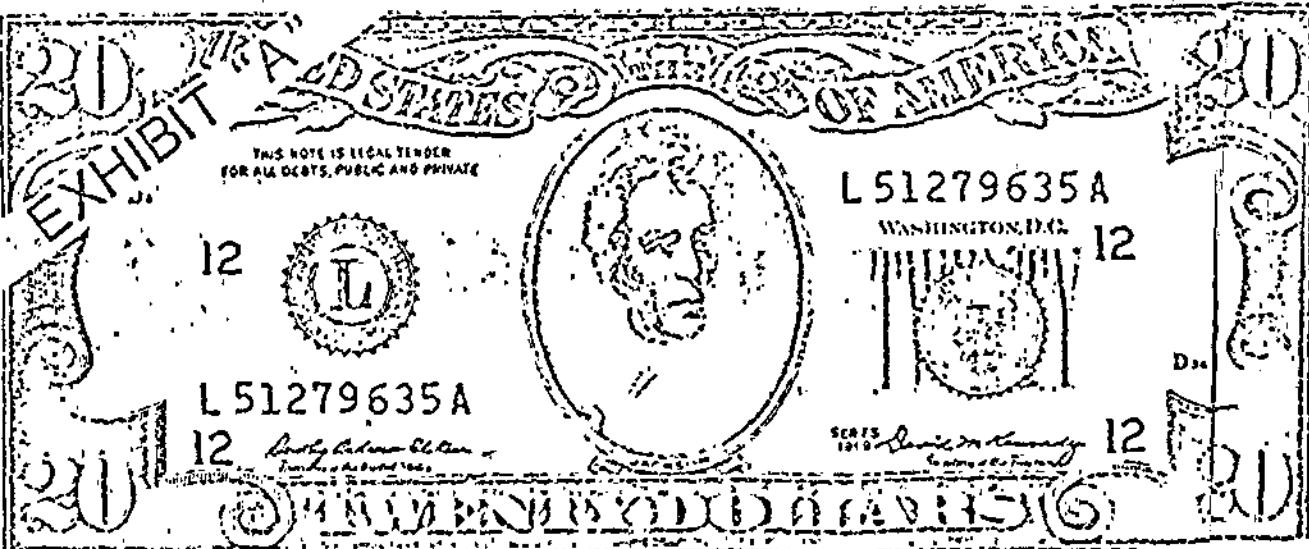

He described jumping from a jet going 200 miles an hour as being cold, dark, loud, windy and scary, very scary!

He had prepared to some extent with long underwear and gloves but in order to remain unnoticed onboard the plane he had to sacrifice some elements of comfort. He had activated the stairs and opened the back door long before he was over the touchdown area to confuse the F.B.I....Finally using Kleenex for earplugs he walked down to the tenth step and stepped off into the mercy of the wind and gravity...In the darkness he heard the engines of the following planes. But he realized that

he worked at Boeing's on the construction of the first Boeing 727 in 1963 and got to know the 727 from C. inside out.

The reason he was attracted to the plan was the alignment of the three Pratt & Whitney engines two on the sides of the rear fuselage and the third at the base of the tail assembly. Also the down-flaps stalling speed. One hundred and nine miles per hour which was risky but jumpable.

Then also he took into account the small crew: Three on the flight deck and the three stewardesses. To central galleys and the wardrobes with the two toilets to the rear, figuring that they might come in handy as a place to hold a stewardess hostage.

It was a calculated risk that's why he jumped in bad weather and at night, also he waited a little longer than usual before pulling his ripcord. Adding that his free fall was about 5,000 of the total 7,000 feet. Which was very risky doing at night.

He came down about a hundred miles away from S.W. Washington contrary to the F.B.I. report that he touched down near Vancouver Washington.

The first thing he did on landing was bury his chute, he was within five miles of where he had intended in an evergreen wooded terrain. He credited this accuracy to his projected calculations and his Japanese watch. He wouldn't say whether he had an accomplice on the ground. He said he had lived in Seattle and had once

THE ACTUAL JUMP

First the briefcase bomb was only real in the sense that it worked, it was constructed of Gillette shaving cream cans, painted red and rigged up with primed fuses. When he flashed them to the stewardesses he carried out his instructions because they were well-intrinated and thoroughly trained. Also they obeyed instructions from Mr. Nyrop of the head of Northwest.

Nyrop figured that it was easier to pay a me 200,000 than to risk four lives and a \$5 million dollar plane. Cooper could smell X-100 fluid on the money he knew that the twenties had been duplicated.

He stayed close to his original plan, only one nervous moment when he was still negotiating on the ground.

JUMPED

...by Mike Noble
ground at Sea-Tac airport. The fueling was being stalled, and he was getting edgy, figuring someone was planning some kind of strategy in an effort to shoot him or something. One of the pilots brought out the money and the two parachutes he had ordered. A stewardess came back with the money in a canvas bag to where cooper was holding another stewardess as hostage in the rear of the passenger cabin.

Cooper checked out the loot, first thing and noticed that they reckoned of duplicating fluid. Then the stewardess made two more trips out on to the runway to bring in the chutes.

Then one of the fuel trucks pulled up...then he ordered the passengers off the plane, and everyone else into the cockpit...a middle-aged, executive looking man started to push his way back through the line into the tourist cabin. Cooper tensed up expecting the guy to try something heroic - but he had just left his briefcase on his seat and was retrieving it.

He figured if the F.B.I. was going to make a move it would be at Sea-Tac. Everybody but the stewardess he was holding hostage and the three man crew was clear of the plane. Buzzing the cockpit he asked the captain what the hold-up was. Trouble with the vapor lock was the answer. And another truck was coming. Cooper told the Captain: "Not more than one fuel truck at a time" but eventually five fuel trucks came out, only three of which were able to deliver. Cooper almost blew his cool, he went forward to the cockpit and told the captain it was take off time, and to take the plane to Mexico.

The plane was again airborn at 7:40 pm four hours and forty two minutes after leaving Portland.

The parachutes were unacceptable so he decided to jump without a reserve chute. he cut the extra chute up and used the strips to tie the money to his waist. Next he took the stewardess forward and ordered the captain to lock the door from the inside. Then he returned aft, closing the first class and tourist compartments behind him.

Then he got on the intercom and told the captain to hold the aircraft at 7,000 feet, and speed at 200 miles per hour.

Last he ordered that nobody, under any circumstances, was to attempt to make any further contact with him. Shortly after he jumped.

Cooper declared to the reporter that he was going to retire the night of the interview and head to an undisclosed destination. He said he would be back in five years, thanks to "The Statue of Limitations!"

Acting Director,

Dear Sir:

I am enclosing page 32 of December 72 FBI Law Enforcement Bulletin and hopefully some information which may assist you in identifying this individual.

My last 12 years served in the army was with [Redacted] and the person described as Dan Cooper may have served with me in the [Redacted]
[Redacted] I cannot recall his name, but he would have been an enlisted man and probably a Sergeant First Class or a Master Sergeant in [Redacted] The name [Redacted] tugs at my memory, but I cannot be sure.

In late [Redacted] the [Redacted] published a yearbook and almost every person assigned to the group had his picture included in the book. My yearbook was ruined through improper storage, but many people who served with me have copies which can be made available to you, and I'm sure that if I am correct some of the retired Master Sergeants and Sergeant Majors from the [Redacted] can assist you in identifying this person.

I suggest [Redacted] or [Redacted] (still on active duty) or many of the others you will find in the [Redacted]

Sincerely

No outstanding suspects are under consideration at this time. There are currently 564 suspects, 230 of whom have been eliminated.

FILE REVIEW

The serial by serial, subject by subject, file review was conducted. The Seattle file review commenced August 3, 1972, and has accomplished the following:

(1.) An intensive investigation has been conducted of the Boeing personnel involved in the 727 air stairs test..

(2.) A new color sketch has been made showing UNSUBS complexion and age more accurately.

(3.) Information concerning UNSUB and the NORJAK incident has been made available to hunters in the southwest portion of Washington State through the Washington State Department of Game Wardens. Although new evidence concerning this case was not turned up, the remains of JAMES ANNIS were found as the direct result of this publicity.

(4.) A reward of 15% of any ransom money returned or \$25,000 total has been obtained through contact with [redacted] of Northwest Orient Airlines.

(5.) Arrangements are being made to conduct an aerial surveillance of the NORJAK flight pattern, (see search area and course).

(6.) Investigation currently under way to ascertain if UNSUB may have used pay phone near his bail out point on evening of NORJAK.

Enclosed you will find two (2) pictures. One is a newspaper print of the composite picture of "Dan Cooper" which was printed in the Seattle PI approximately a week ago. The other is of [redacted] and at that time [redacted]

He was born on [redacted] enlisted in the Navy, during which time he served as [redacted]. For the last several years, he has lived in Indiana. This I can remember for sure because he was giving my [redacted] While I

[redacted] cannot conceive him being smart enough to pull off a high-jacking, he is an extremely glib talker. He, in my opinion, has a problem differentiating between truth and lies. When he speaks on any subject matter, no matter how simple, he takes a fragment of truth, elaborates, and comes out with falsehoods. The picture enclosed shows his complexion darker than it actually is. [redacted]

I told him I would contact him later about it.

I called SA [redacted] at the Bureau and advised him that the FBI Law Enforcement Bulletin carried an article on this case and that the photograph appeared to be that one which we are currently trying to update, but so far as I knew a final version of it had not been prepared at the Bureau.

b6

He advised that this was true and he didn't know why the photograph was published.

I contacted [redacted] later and advised him that we were not making any additional comment on this, other than that which appeared in the law enforcement bulletin.

TO: SAC, ALEXANDRIA (164-72)
FROM: SAC, SEATTLE (164-81) (P)
SUBJECT: NORJAK
OO: SEATTLE

An extensive search involving numerous FBI and military personnel was conducted of the area computed to be the most probable area that UNSUB parachuted into on 11/24/71. The results of this search were negative.

On the night of NORJAK, a jet airliner flew over the home [redacted] Washington at an altitude of 5,000 feet. [redacted] home is considerably east of the search area and if the jet airliner that flew over his home was the hijacked Boeing 727 this would indicate an error was made in the calculation of the search area.

The search area was calculated by [redacted]
Northwest Orient Airlines employee and by [redacted]
[redacted] McChord Air Force Base, Tacoma, Washington.

Attempts are being made to contact [redacted]
by the Seattle Division to recalculate the search area with him.

On 1/12/73 [redacted] McChord
Air Force Base, advised [redacted] has been transferred to the Far East. [redacted] further advised that he is in possession of the Radar Data and calculations used by [redacted] to estimate UNSUB's drop area. [redacted] advised he could not make this information available to the FBI personnel without the prior approval of the National Military Command Center.

RE: UNSUB; TELEPHONE NUMBERS CALLED FROM
LaCENTER AREA PAY PHONE BOOTHS, NOVEMBER 24, 1971

SAC 518

All the pay phone booths in the LaCenter area have been checked for long distance phone calls on the night of November 24, 1971, and the morning of November 25, 1971. It is thought UNSUB might possibly have made a phone call from a pay phone near LaCenter, Washington, after parachuting from the Northwest Orient Airlines plane.

The following phone numbers have been determined to be among those called on the above-mentioned dates:

<u>Number Called From</u>	<u>Date Called</u>	<u>Number Called</u>
[redacted]	[redacted]	[redacted]
[redacted]	[redacted]	[redacted]
[redacted]	[redacted]	[redacted]

The above information was obtained from the Lewis River Phone Company. It has been determined through appropriate sources that the numbers called are not valid telephone numbers, and no subscriber information was available.

On 1/26/73 [redacted] Pacific National Bank of Washington, Chehalis, Washington advised that he had received his copy of the booklet re serial numbers of bills in captioned matter. He stated that the \$800 in \$20 bills were all checked against the serial numbers in the booklet with negative results. He pointed out that the abnormal number of \$20 bills aroused the suspicion of [redacted] at the bank.

b6
b7C

[redacted] was also contacted and examined that the individual who made the \$800 deposit was [redacted] who is about 40 years old, an old depositor at the bank, but one who has never had such a large sum of money in his account before. He is a white male, 6'1" tall, dark hair, bushy and full head of hair and extremely blue eyes which she is sure are not blue contact lenses. She viewed two photos of unsub (composite drawings) and stated there is no resemblance to the sky jacker in the physical makeup of [redacted]

b6

In view of completely negative information re bill serial numbers of \$800 in 20s and physical description and no identification effected through the photos viewed no further investigation is warranted in this matter.
