PREPAID SERVICE

All international visitors who visit the NUBIA branch will receive a free SIM card with a 1GB data bonus.

This promotion is not available at other branches or through the website

Tourist sim new customer

The “Tourist” package can be purchased from the MobiCom website in both eSIM and physical SIM formats.

- For purchasing in physical SIM format, customers can buy a blank SIM card from MobiCom’s sales channels that sell blank SIMs, and then purchase the “Tourist” package from the relevant section on mobicom.mn.
- If the customer does not activate the package within 30 days from the date of purchase via the website, the package will be automatically cancelled after 30 days in accordance with the current terms and conditions.
- The service period will commence from the date the customer activates the data package, and the package will be automatically cancelled upon expiry.
- The “Tourist” package number cannot make or receive calls, except for calling the MobiCom customer service at 2222.

Tourists who visit Mongolia can choose from 3 different plans

DATA PACKAGE 1

Price: 20,000₮

Data Allowance: 15GB

Calls: Not included

Validity: 7 days

Service Period: Calculated based on the package validity. Once the validity period ends, the number will be deactivated.

DATA PACKAGE 2

Price: 30,000₮

Data Allowance: 25GB

Calls: Not included

Validity: 15 days

Service Period: Calculated based on the package validity. Once the validity period ends, the number will be deactivated.

DATA PACKAGE 3

Price: 60,000₮

Data Allowance: 50GB

Calls: Not included

Validity: 30 days

Service Period: Calculated based on the package validity. Once the validity period ends, the number will be deactivated.

Why a TOURIST SIM card?

- You can choose from four different packages tailored to your travel days, data, and call needs.
- Connect to high-speed 4G network across all 21 provinces, 330 soums, and Mongolia's breathtaking natural destinations, and instantly share your precious travel memories on social media.
- Wherever you go, MobiCom's high-standard, friendly service will be there for you.
- By calling 2222, you can receive the assistance and services you need in English.
- We invite travel agencies, hotels, individuals, and organizations that welcome tourists to Mongolia or organize trips to collaborate with us.

TOURIST SIM SERVICE ADVANTAGES

- You can always be connected by our widest network.
- Wide range of scratch cards and data packages.
- You can regularly check your balance.

TOURIST SIM GUIDE

- Put a SIM card into your phone and then enter the 0000 PIN code to activate the number.
- To change language notification: call 213 and press 2
- To check data balance: call *210# and press 2 → press 2 *
- You can check all your balances through the mobicom application.

Tourist sim customer support: Call 2222 and press 2 for English

SIM ACTIVATION GUIDE

Buying a SIM via Website or Mobi App:

- Go to the Tourist Data SIM purchase page.
- At the top of the page, you will see information about the three available data packages.
- After selecting a data package, you will be prompted to choose the SIM type.
- eSIM: A list of phone models that support eSIM will be displayed.
- Physical SIM: A section with activation instructions will appear. You will be required to enter the 9-digit number before the "F" letter located on the back of the physical SIM card. If you prefer a physical SIM, you can visit a MobiCom store and purchase a blank, ready-to-use SIM card, then enter the SIM details to activate.
- Enter your email address. A verification code (OTP) will be sent to your email.
- Once the code is verified successfully, you will be redirected to the payment step.
- In the payment section, card payment is the only available option. Clicking the "Pay" button will redirect you to the secure bank payment page.
- Enter your required card information and complete the payment.
- After successful payment, a confirmation window will appear stating that your eSIM/physical SIM information will be sent to your registered email.

RECHARGING DATA

Recharge via Reminder Message:

- When your data usage reaches 80% and 100%, or one day before the package expires, you will receive a reminder message.

This message will include a direct link to the recharge page, where you can conveniently repurchase your package.

RECHARGE VIA WEBSITE:

- Go to mobicom.mn, select:
International Service > Tourist Service > and go to the "Recharge Your Package" section to repurchase your desired package.

MOBICARD SERVICE

Mobicard is the basic prepaid service package of Mobicom. You can purchase top-up cards from over 10.000 contracted distributors of Mobicom located in each corner of the country or from the website www.mobicom.mn

Benefits of Mobicard service:

- It has the widest network
- You can check or control your phone bill as you wish
- Wide range of scratch card and data packages
- No worries about validity days
- You can regularly check your balance
- It has the Opportunity service that can be used when you run out of unit

Mobicard Service charges

Call: 70₮

Message: 25₮

POSTPAID SERVICE:

MyMobi Postpaid Plan

Overview

MyMobi is a customizable postpaid plan that allows customers to freely combine voice and data packages based on their individual needs. The total monthly base fee is calculated by adding the selected voice package and the selected data package.

Example:

If you choose a 10,000₹ on-net unlimited voice package + 15,000₹ 10GB data package, your monthly base fee will be 25,000₹.

Eligibility

- Must be 18 years or older.
- Must visit a service center in person with:
 - Digital signature or
 - Valid national ID or equivalent document.
- Registration fee: 0₹

Case	Deposit Amount
First number under My Mobi (if criteria met)	0₹
Customers getting 2 or more numbers, base fee $\leq$ 40,000₹	20,000₹
Customers getting 2 or more numbers, base fee $>$ 40,000₹	40,000₹

Usage Limit Settings

Customers may set a usage limit level when receiving service via the Mobicom App, website, or with assistance from employees. If the customer does not request it, the usage limit will not be set.

1. For online activation (App / Website)

Base Fee Range	Usage Limit Level
24,000 – 105,000₹	Base fee + 100,000₹

Example: If your base fee is 24,000₹, your usage limit becomes 124,000₹.

2. For activation via employee assistance

Base Fee	Usage Limit Level
Any plan	150,000₹ (fixed for all plans)

Example: Even if your plan is 24,000₹, usage is limited after reaching 150,000₹.

My Mobi Package Options

Benefit	Price (VAT incl.)	Notes
First 3 minutes of every call free (any network)	9,000₹	Cannot be chosen alone
Unlimited on-net calls	10,000₹	Cannot be chosen alone
Unlimited calls to all networks	25,000₹	—

Data Packages

Data Package	Additional Benefits	Price
10GB	—	15,000₹
25GB (5G)	VOO Content + Sony Music	30,000₹
35GB (5G)	—	40,000₹
45GB (5G)	VOO Premium + Sony Music	50,000₹
70GB (5G)	—	65,000₹
99GB (5G)	—	80,000₹

Data Usage Rules

- After the included data is consumed, internet speed will be reduced to 256 kbps.
- VOO benefits:
 - **25GB & 35GB** → VOO Content
 - **45GB, 70GB, 99GB** → VOO Premium
- VOO & Sony login credentials will be sent via SMS upon activation.
- If the number is suspended/kept, VOO benefits pause.
- If the number is terminated, VOO benefits also expire.

HYBRID POSTPAID SERVICE

Overview

Hybrid service is a combined Postpaid + Prepaid package.

- Customers receive fixed monthly usage included in the base fee.
- Any usage beyond the included allowance is charged using the customer's prepaid balance (units).

This service allows customers to enjoy the flexibility of prepaid usage while maintaining the convenience of a monthly postpaid bundle.

Eligibility

Individual Customers

- Must be 18 years or older
- Must visit a service center with:

- Digital signature, or
- Valid national ID, or
- E-ID verification document

Corporate Customers

- Must visit a service center with:
 - Official request letter
 - Representative's ID or E-ID verification

Prepaid to Hybrid Migration

Customers who have used their prepaid number for more than 3 months may switch to Hybrid by calling 2222 from the number they wish to convert.

New Hybrid Package -Hybrid 15000 Package

Item	Details
Base Fee	15,000₹
On-net Voice	Unlimited
Off-net Voice	100 minutes
Data	5GB + unlimited at 128 kbps after usage

Voice Usage Rules

- After the included 100 off-net minutes are consumed, calls to other networks are charged at 70₹ per minute, deducted from the prepaid balance.

Data Usage Rules

- After 5GB is used, customers continue using data at 128 kbps until the end of the billing cycle.

Allowance Activation

- All monthly allowances renew on the 1st day of each month.

Unlimited On-net SMS Add-on for Hybrid 15000

Item	Details
Add-on Name	Unlimited On-net SMS
Price	5,000₹
Activation Code	Send SMS to 404

Add-on Rules

- Can be activated any day of the month.
- Valid until the end of the current billing month.

- SMS charges are deducted from the prepaid balance.
- If activated after the 25th day of the month, the system will send a confirmation request → customer must reply “YES” within 30 minutes for successful activation.

Hybrid customers can pay their monthly bill using prepaid balance (units) within the range: 1,000₹ – 70,000₹

How to Pay via SMS

Type “mobicom <space> [amount]” and send it to 404.

Alternative Payment

- Customers can also pay via the Mobi App using their prepaid units.

Important Notes

- Corporate numbers and accounts with multiple Hybrid package numbers are not eligible for SMS unit payments.
- VAT receipts are not provided for unit-based bill payments because VAT receipt is already issued when purchasing prepaid units.

Billing Cycle for Hybrid 15000

- Usage period: 1st to 31st of each month
- Bills issued: between the 5th–7th of the following month
- Bills are sent via SMS and email

Checking Usage

- Current month usage: Send M to 510
- Previous month usage: Send YYYYMM to 510

Recommendation:

Using the Mobi App is the easiest way to monitor usage.

Suspension & Account Retention

If a Hybrid number remains fully blocked for 3 consecutive months due to unpaid bills, it will be terminated on the 1st day of the 4th month.

To avoid disconnection, customers may continue paying their base fee monthly—even if the service is not actively used.

Legacy Hybrid Packages (No longer available for new registration)

Hybrid 14900

Item	Details
Base Fee	14,900₹

FAQ (Frequently asked questions)

1. Get a new number:

If you want to get a new number, you can choose your number and get it online by following the link below. Link: <https://www.mobicom.mn/?open=number>

Note: Currently, only Postpaid and Combined prepaid numbers can be purchased online.

New number price:

The number is 3000₮, but if you get it via eSIM, the number price is 5000₮.

2. Branch location and schedule

See the locations of Ulaanbaatar and local branches at the following link:

<https://www.mobicom.mn/service-branches>

3. Get PUK code

If you have forgotten the PUK code of your SIM card, you can retrieve the PUK code here.

Users can access the Mobicom application

- From the Profile menu

Unified Service Center 2222

- From the automatic answering machine between 20:00 and 09:00, 2222- Self-service-Additional services menu
- For additional information, please contact the service consultant

Customercare@mobicom.mn

- By sending a request from your registered email

Service branch

- In person with your ID card

Things to note when obtaining a PUK code

If the user enters the PUK code incorrectly 10 times, the SIM card will be damaged, so be careful not to enter it incorrectly many times.

Unit types

You can recharge by choosing from the following recharge cards

1. Unit recharge card 1: 10'000₮ special recharge card.

This card is available only from Mobicom and Monpay applications. When purchasing the card, choose one of the following 3 options.

- c. Option 3: 28,000 units

Choose from the above recharge cards according to your needs and purchase them most easily using the Mobicom application and Monpay application.

Purchase units via Mobicom application

Mobicom app - Easy service - Click on 'Unit' and select the 'Get' button. In what form will you receive VAT? option will appear. Select whether you are an individual or an organization and click 'Continue', and you will see a choice of monpay app and bank apps. Select and complete the payment.

Purchase units via Monpay application

Go to the Monpay app - Mini app - Recharge card - Mobicom recharge card - Digital card menu and choose from recharge cards with talk, units, and data according to your usage. Click on the selected card and select the 'Continue' button to confirm, then enter your 4-digit transaction PIN.

Information about the 5G network

It is the next generation of our widely used 4G/LTE mobile internet service, the 5th generation. You can use the 5G network to download and play the latest applications, games, videos, and content at super high speeds.

How to set up 5G on your phone?

To use 5G network by opening 5G settings:

You can check if there is a 5G option in your phone's settings menu to see if your phone supports 5G.

If your phone has an iOS operating system: Select 5G from Settings > Cellular > Cellular Data Options > Voice & Data or Settings > Mobile Data > Mobile Data Options > Voice & Data.

If your phone has an Android operating system: Select 5G from Settings > Connections > Mobile Network > Network mode.

If you want to buy a phone, visit Mobicom online branch: <https://www.mobicom.mn/shop>

If you set up 4G but do not use 5G network

If your phone has an iOS operating system: Select 4G or 4G only from Settings > Cellular > Cellular Data Options > Voice & Data or

Settings > Mobile Data > Mobile Data Options > Voice & Data.

If your phone has an Android operating system: Go to Settings > Connections > Mobile Network > Network mode and select 4G or 4G only.

HOW TO PAY?

You can use the following digital channels Bill payment options

Phone bill: Your monthly phone bill is calculated during the period 5th of the subsequent month and informed to you by SMS sent from the number "TULBUR".

The bill is the final amount inclusive of the basic monthly fee of the given package, bill of calls, other fees, discounts or promotions as well as VAT. Also, the SMS will inform you of the balance of unused units from the previous month.

You can easily pay with the Mobicom application by following the instructions below.

When paying for your own number: Mobicom application - Payment information - The number to pay and the payment amount will be automatically displayed and when you click 'Pay', the option When you select whether you are an individual or an organization and click 'Continue', the options for the monpay application and bank apps will appear. Select and complete the payment.

When paying for other numbers: Mobicom application - Easy services - Payment - Enter the number to pay and the payment amount - When you click 'Pay' the option When you select whether you are an individual or an organization and click Continue, the options for the monpay application, bank card and bank apps will appear. Select and complete the payment. You can check your payment by clicking 'Check payment'.

Monpay application

1. Go to the Monpay app
2. Go to the Payments
3. Select the Mobicom payment section
4. Click on the Continue button
5. Enter your 4-digit transaction PIN code
6. Confirm

Mobicom.mn website

SERVICE TERMS

New user:

- To become a Mobicom Prepaid service user, you can get a number through the Mobicom application or visit the service branch with your electronic ID and equivalent documents to become a new user.
- A user can own up to 2 prepaid service numbers. However, a STARS package user can own 1 number in his/her name.
- Note: Please note that if a new number is not used within 30 days of purchasing it, the number will become invalid.

Package shift:

Switching packages means changing the type of package without changing the contract holder or number. You can switch between the desired packages once a month, provided you meet the basic criteria of the package's age category and service terms.

- To change your package, you can come to the service center with your electronic ID or equivalent document or use the Mobicom application.
- When changing packages, the discount rights specifically for that package are lost, and the discount rights for all prepaid users remain intact.
- Users who use the Instant Unit service can switch packages, and after the package is switched, the Instant Unit balance will be deducted when recharging with a recharge card.
- When changing packages, the numbers registered with the user's WE service will remain the same.

Temporarily suspend number:

- Temporary suspension of a number means the suspension of access and usage rights at the user's request. If the user loses their number, they must contact the service department in person with their electronic ID or equivalent document.
- Once the user's number registration is complete, it is possible to temporarily suspend the number by contacting the Unified Service Center at 2222. In this case, please note that you will be asked to answer additional questions to confirm the registration.

List of usage:

- Mobicom Prepaid service users can print out a detailed list of usage for the last 3 months by visiting the service branches in person with their electronic ID.
- The following rates apply to the detailed utility list, which you can print in English and Mongolian.
 - 1 month or 1-31 days of information 1000₮
 - 2 months or 1-61 days of information 2000₮
 - 3 months or more than 61 days of information 3000₮

Support:

How do I check my units and service days in my account?

- You can check your account balance and active days by logging into the Mobicom application. Or you can check by dialing *210#.

Can I save the number if I don't use it?

- Prepaid numbers cannot be saved, so they must be recharged with recharge cards.

How many days will it take for a number to be deleted if it is not used?

- If you do not use your new number within 30 days of purchasing it, it will be deleted.

If not used within 90 days after the end of the service period, it will be deleted.

How to restore a SIM card?

- Using a ready-made SIM or E-SIM, go to the SIM recovery menu in the Mobicom application to restore it.
- Please come to the service branches in person with your electronic ID to receive SIM card recovery services.
- Regular SIM card: 3,000₮
- E-SIM card: 5,000₮

ADDITIONAL SERVICES

Magic Voice (Funny Call) Service

Magic Voice is an additional service that allows you to change your voice tone while making a call and play ambient sounds during the conversation. You can talk to any mobile operator using the Magic Voice service and have fun with your friends by choosing from the following ambient sounds and voice tones:

1. Doll voice
2. Monster voice
3. Mouse voice
4. Traffic jam sound
5. Airport sound
6. Birthday melody

Magic Voice service instructions for activation and cancellation

Prepaid and Combined Prepaid Users:

- To activate the service every month, send "ON30" to 422. The monthly base fee is 2500₹.
- For daily activation, send "ON1" to 422. The daily base fee is 100₹.

Postpaid Users:

- The service can only be activated every month. To activate, send "ON30" to 422. The monthly base fee is 2500₹.

To Cancel the Service: Send "OFF" to the special number 422.

To Check the Service: Send "V" to the special number 422.

HiTone Service

Instead of a simple ringtone, the HiTone service will play a variety of melodies and songs that reflect your unique personality to the person calling you. The content of the HiTone service is valid for 365 days from the date of initial download, and the user can select the content to play each time they renew the HiTone service.

HiTone Service activation and Cancellation Instructions

Prepaid and Combined Users:

- To activate the service every month, send `ON` to the special number 455. The monthly base fee is 2500₹.
- For daily activation, send `D` to the special number 455. The daily base fee is 100₹.

Postpaid Users:

- The service can only be activated on a monthly basis. To activate, send `ON` to the special number 455.
The monthly base fee is 2500₹.

HiTone Service to Cancel the Service:

- Prepaid and combined users should send `OFF` to the special number 455. The basic service fee is deducted from the user's account when the service is activated, so it is not possible to refund the remaining days.
- Postpaid users should send `OFF` to the special number 455. If the user cancels the service in the middle of the month, the basic fee will be charged for the days used in that month.

To Check the Service Period:

- Send the letter `V` to 455. The cost of sending 1 message is 10₹.

Number Hiding Service

This service allows users to hide their number when making outbound calls.

Number Hiding Service Activation and Cancellation Instructions

Prepaid and Combined Prepaid Users:

- To activate the number hiding service on a monthly basis, send ON to 480. The basic monthly fee for the service is 2500₹.
- For daily activation, send D to 480. The basic fee for 1 day is 100₹.
- To cancel the service, send OFF to 480.

Postpaid Users:

- The service can only be activated on a monthly basis. To activate, send ON to 480. The basic monthly fee is 2500₹.
- To cancel the service, send OFF to 480. If the user cancels the service in the middle of the month, the basic fee will be charged for the days used in that month.

Number Hiding Service automatic renewal:

- If you do not send a cancellation request at the end of the service period, the number hiding service will be automatically extended.

Instructions for Setting Up Your Phone to Hide Your Number:

- Hide your number all the time: Settings → Call settings → Send my caller ID → Hide
- Hide your number when you want: Call settings → Send my caller ID → Show or type the number you want to call when you want to hide your number and press 31.

- Reveal your number when you want to call: Call settings → Send my caller ID or type the number you want to call when you want to reveal your number in the dialing area and press 31.

Number Hiding Service Additional Instructions:

- If you have set up your phone to hide your number when you want to call, enter #31# when you want to call.
- If you have set up your phone to reveal your number when you want to call, enter *31# and call.

Call Storage and Notification Service

When the mobile phone is turned off or out of the network, the call storage service stores the call information of 20 different numbers called from outside in the last 4 days and sends a message when the user turns on the phone.

On the other hand, the call notification service sends a message to the caller that the phone of the user who has activated the call storage service is now available to receive calls.

Call Storage and Notification Service Activation and Cancellation Instructions

Prepaid and Combined Prepaid Users:

- To activate the service on a monthly basis, send ON to the special number 450. The monthly base fee is 2500₺.
- For daily activation, send D to the special number 450. The daily base fee is 100₺.

Postpaid Users:

- The service can only be activated on a monthly basis. To activate, send ON to the special number 450. The monthly base fee is 2500₺.

Call Storage and Notification Service Cancellation:

- To cancel the call storage service, send OFF to the special number 450.
- To cancel the call notification service, send OFF1 to the special number 450.

To Check the Call Storage and Notification Service Period:

- Send the letter V to the special number 450.

Call Waiting Service

This service allows the user to receive a call from another user while already on a call, and to answer the second call by disconnecting the first user. All Mobicom users can activate and use this service for free on their mobile phones.

Mobile Phone Settings:

- Samsung: Menu → Settings → Network services → Call Waiting → ON
- iPhone: Settings → Phone → Call Waiting → ON

Instant Credit Service

Prepaid and postpaid users are eligible to use the instant credit service depending on the period of use of their number if their number is fully registered.

Instant Credit Service Conditions:

- If you have used your prepaid or postpaid number for 7-12 months, you can borrow 100, 200, or 300 units up to 2,000 units. If you have used your number for more than 12 months, you can borrow 100, 200, or 300 units up to 4,000 units.
- If you have used your Tourist SIM for more than 6 months, you can borrow 100, 200, or 300 units up to 500 units.
- Numbers with Stars packages cannot borrow credits.
- Please note that the period of use of the number must be more than 6 months.

Instant Credit Service instructions for use:

1. Use the *210# menu to get instant credit.
2. You can get the instant unit service by collecting the numbers *500#, *1000#, and *4000# and pressing the green call button.
3. SMS Offer: If the unit balance is not enough, send a request to the special numbers 234, and 592 to activate the package.

Instructions for Getting Instant Units Using the Mobicom Application:

- All prepaid and combined users can get 100 - 4000 QUICK units directly from their Mobicom application.
- Log in to the Mobicom application with the number you want to get an instant unit loan, click on the instant unit section on the front page, select the amount of the unit you want to borrow, and press the yes button to receive the unit.
- To check the instant unit balance, you can use the *210# menu or the Mobicom application.

Instructions for Receiving Data Packages Using the Instant Unit Service:

- **Conditions for Receiving Instant Units When Purchasing a Data Package:**
 - When a user sends a request to activate a data package, if the balance of the user's account units is not enough to activate the data package, the data package can be activated with an instant loan for the missing amount.

- When VE users send a request to 234 to activate 1-day unlimited TALK, CHAT, MJoy, and Play packages, if the balance of the units in the account is not enough to purchase the package, the package can be activated with an instant loan for the missing amount.

Instant Credit Service Additional Conditions:

- Based on the user's criteria, sufficient units will be offered to activate the data package.
- If the price of the data package that the user wants to activate is not enough even after the user borrows units, the data loan service will not be offered.
- All Prepaid service and Hybrid service users can activate the data loan service.

Opportunity Service

- This service allows you to pay for calls by receiving calls. In other words, you can use this service to make calls when you have no units.
- When you dial the prefix code 434, you can assign the call fee to someone else even if you have enough units in your account.
- The number of calls per day is unlimited.
- When you call the number, information will be sent to the recipient, and if they agree, they can press the 1 button to accept the call at your expense.
- If they do not agree, the call can be disconnected immediately.
- The account of the user who is paying for your call will be charged at 70¢ per minute. Even if the user who is paying for your call has the right to make free calls, if they call you, their account will be deducted and an additional fee will be charged.
- If you have a low unit balance and want to assign the call fee to the number you are calling, you can dial the prefix code 434 in front of the number.

To Disable the Opportunity Service:

- To disable the service of having others pay for your calls, send the message Out off to the special number 434.
- To disable the service of paying for others' calls, send the message Inc. off to the special number 434.

Opportunity Service Note:

- Call forwarding and International SMS roaming services are not available to users who have activated them.

Top-Up Service

The Mobicom application now allows you to send TOP-UP requests for units and data. When you send a TOP-UP request to a user with a Mobicom number, your number will be topped up with units and data if the person agrees.

You can top-up a prepaid or postpaid number with a basic unit, a unit with usage rights, additional night data, entertainment data, and a VOO data package.

Instructions for Using the Service:

1. Go to the Mobicom app.
2. Go to the Data/Unit menu.
3. Select the data/unit you want to top up.
4. Click the Top-up option.
5. Enter the number you want to top up.
6. Click the OK button to finish.

You can close the top-up service at any time and not receive requests from others. If you receive a request to assign a task and it is not fulfilled within 24 hours, the request will be deleted. The number of requests sent per day by a user is no more than 3, and the number of requests received is no more than

Voice Message Service

- Service price: Voice messages are charged according to the call price of the calling user's package. For example, a user who speaks for free on the Mobicom network leaves a voice message to a Mobicom number for free.
- The voice message service has no monthly base fee and there is no additional charge for listening to or deleting voice messages.
- If the user does not leave a voice message but does not hang up after the signal sounds, the voice message service fee will be charged.
- The duration of one voice message is 60 seconds. When the voice message time reaches 60 seconds, the call will be disconnected immediately.

Instructions for Using the Voice Message Service: If the user of the number you called:

- Did not answer
- Refused to receive the call
- Double-dialed
- When the call is not reachable, your call will be transferred to the voice message service.

You can also enter “202+Phone number” and press the call button to send a voice message at any time.

Voice Message Service Instructions for Activating and Canceling:

- To activate the voice message service, send a request of ON to 202.
- To cancel, send a request of OFF to 202.

Voice Message Service Instructions for Listening to Voice Messages Service:

- Call the special number that came in the message directly to listen (special number 202XX).
- Call the special number 202 and enter the last 2 digits of the special number of the message to listen.

There is no additional charge for listening to voice messages.

Family & Friend WE Service

WE is a service where members can talk to each other for free and share data packages.

Family Friend WE Service Terms and Conditions:

Number of members to register: 1 admin, 5 members

Admin service package: Postpaid, prepaid, combined payment

Payment terms: 0₹

Right to make calls within the network: Unlimited between group members

Add member: 0₹

Remove member: Once a month, 0₹

Special service number: 444

Combined and prepaid users can become admins and create groups for free (Stars package users cannot become admins). Create a group and add up to 5 close people to talk to each other for free.

Family Friend WE Service Instructions for Use:

- Send request to 444
- Create group: On
- Delete group: Delete
- Add member: +99xxxxxx
- Remove member: -99xxxxxx
- View member: D
- Change admin: #99xxxxxx
- Confirm:

- Add member: Yes
- Change admin: Confirm

The user who sent the admin change request must resend the confirmation request within 30 minutes. If the admin number sends the request to become a member, the user who becomes a member must send a confirmation request within 24 hours.

Family & Friend WE Service Additional Features:

1. Members can recharge units to the number of the person who uses the units at a fixed amount every month. You can activate this service of automatic recharge by units via message or through the “WE” menu of the Mobicom application. The member who sends units does not have to be an admin and can be a Postpaid or Hybrid service user.

Family & Friend WE Service To Activate via Text Message:

- Send a message to the special number 444 according to the following instructions:
 - NEGJ 9***** 5000
 - NEGJ 9***** 7000
 - NEGJ 9***** 10000
 - NEGJ 9***** 15000
 - NEGJ 9***** 20000

Family & Friend WE Service To Cancel the Unit Auto-Recharge Service:

- For each number, send Stop 99*****.
- To cancel all auto-recharge numbers, send Stop to 444.

Family & Friend WE Service Additional Notes:

- The service will be canceled on the day the user sends the request, and unit recharges will not be made starting from the following month.
- The unit recharge fee made in the month the service is canceled will be charged to the user’s bill.
- In the month the service is canceled, the unit recharge service will not be activated again for that number, and you will be able to send a new request from the 1st of the following month.
- The unit charge for the month in which the service was canceled will be charged to the user’s bill.

The WE Service Cancellation

The WE service can only be canceled from the admin number. Send a Delete request from the admin number to 444 to cancel. By canceling the service, the right to free calls between service members will be invalid.

Unit Transfer Surprise Service

- If you want to send units from your number to your family and friends as a surprise, use the Surprise service. This service is available to all Mobicom Postpaid, Prepaid, and Combined Paid service users.

Unit Transfer Instructions:

- Take a space in the receiving number, write the amount of units to transfer, and send it to 596.
- For example: Write 99***** 5000 and send it to 596.

Unit Transferable Amounts:

- For prepaid and combined payment users, the transferable amounts are 100, 200, 300, 400, 500, 600, 700, 800, 900, and 1000₮. You can use the surprise service 5 times a day. The maximum transfer unit limit per day is 5000₮.
- For postpaid users, the transferable amounts are 1000, 2500, and 5000₮. You can use the surprise service 5 times a day. The maximum transfer unit limit per month is 15000₮.

Unit Transfer Fee:

- 10% of the transferred unit amount is considered as a service fee. For example, if you transfer 100 units through the unit transfer service, $100 + 10 (100 * 10\%) = 110$ units will be deducted from your account.

Roaming service

What is international roaming service?

This is a service that allows you to use your mobile phone number when traveling to a country other than Mongolia anywhere in the world. Currently, Mobicom users can use international roaming services in more than 200 countries around the world.

To get information about roaming service price:

To get information about the price of a particular country via SMS, send the first 4 letters of the country you are visiting, or the entire text in English, to 599. For example, send "Russia" to 599.

Instructions for sending messages using roaming service

When sending a message to a Mongolian mobile phone user, directly enter the mobile phone number.

To send a message to a user of another operator abroad:

+ symbol + Country code + Mobile number

Roaming call instructions

A Mobicom user calls a Mongolian mobile phone user from abroad:

+ symbol + 976 + Mobile number

A Mobicom user calls a Mongolian landline from abroad:

+ symbol + 976 + Prefix number + Landline number

A Mobicom user calls a mobile phone user in the country they are traveling to:

Mobile number

A Mobicom user calls a landline phone in the country they are traveling to:

+ symbol + Country code + City code + Landline number

A Mobicom user calls a mobile phone user in another country:

+ symbol + Country code + Mobile number

A Mobicom user calls a landline phone from another country:

+ symbol + Country code + City code + Landline number

If the number you are calling is an internet landline number /7***-****/, dial it directly without the prefix. If the number you are calling is a landline number /2*****, 3*****, 4*****/, dial the prefix 11 or 51 followed by the number.

How to use data roaming service?

Data roaming service is available to users who have activated voice and SMS roaming services.

Step 1: Activate roaming service – Type On and send to 599

Step 2: Activate data package - *Type the sending code and send to 599

Roaming data package

Mobicom users can choose from unlimited speed and unlimited usage daily data packages. You can choose from unlimited usage packages that suit your needs and use the internet on 3G, 4G, 5G networks from your mobile phone wherever you want abroad without worrying about overage charges during the selected package period.

Things to note when purchasing data packages:

- Users must activate their roaming service by texting ON to 599 10 minutes before traveling abroad.
- Users who have activated roaming service should immediately purchase and use the data package appropriate for the country they are traveling to.
- Please note that after activating the message roaming service, when the user's paid usage reaches 300,000₮, the roaming service will be closed and the roaming data package will not be available.
- Some phones in the China Mobile operator network in China may work on the 2G network depending on their model and model, so please choose the China Unicom operator.

There are 3 types of data packages for international use: “Unlimited data package”, “100MV and 500MV data packages”, and “Unlimited speed data package”. Click on the link below to view the price information for the data packages.

Link: <https://www.mobicom.mn/service/18>

As 5G networks are widely deployed in countries around the world, 2G and 3G technology networks are being phased out. Therefore, 2G and 3G voice roaming services are no longer available in some countries, and 4G VoLTE roaming services have been introduced instead. To use 4G VoLTE roaming services, we recommend that you replace your 4G VoLTE network-supporting device and eSIM card. For this, your phone must also support VoLTE.

Global Data eSIM Service Terms:

Global Data eSIM is available in 100 countries around the world, with many package options. Reliable, cheap, and easy to use, just install and activate your package. You can purchase Global Data SIM using the Mobicom application.

Global Data eSIM Service Packages:

- Available in all registered countries, regional packages for Southeast Asia, Asia Pacific, Europe, North America, Middle East and North Africa, and Latin America
- 100 country packages - Packages available only in the specified countries
- Data package options: 1GB, 3GB, 5GB, 10GB, 15GB, 20GB, 30GB, 40GB
- Your mobile phone must support eSIM
- The Data package will be activated by connecting to the network of the mobile operator of the country you are traveling to. When you purchase an eSIM while in Mongolia, install it on your phone, and arrive at your destination country, the data package will start running when you connect to the network of that country (the operator available when purchasing the package will be displayed).

For instructions on purchasing Global Data eSIM service from the Mobicom application.

003 gateway term

Postpaid user: This service can be accessed by paying a deposit of 200.000

Prepaid & Hybrid user: You can make international calls with units on your account without making a deposit

***and # gateway term**

Postpaid user: It will be added to the monthly payment

Prepaid & Hybrid user: You can make international calls with units on your account without making a deposit

Does the phone brand matter when using roaming services?

The United States, Canada, Japan, and Korea require a phone that supports 3G networks.

Is it necessary to change the SIM card to receive international voice roaming services and message roaming services?

The user must have activated the SIM and installed the GLOBAL ROAMING menu on the SIM card. If the GLOBAL ROAMING menu is not installed, the SIM card must be replaced.

I traveled by sea and paid a high fee because I was charged a satellite price. Is this possible?

If your mobile network search is automatic, Cruiseship and Ferries satellite networks may be selected in some places where there is no network of the contracted operator when you are at sea or near the sea.

Can I use my data package abroad?

The data package used on the Mobicom network cannot be used abroad. Instead, use the roaming data package that can be used abroad.

How to monitor your roaming service usage?

Send the letter M to 599. You can check your payment information several times a day.

Note: Payment information is delayed by 2-3 days. When sending M to 599 from abroad, the message rate of that country will be charged.

What is the reporting level for roaming usage?

In case of voice roaming, usage over 50,000₺ will be reported via SMS. For 300,000₺, 600,000₺, 900,000₺, 1,000,000₺ and above, 1,200,000₺, 1,500,000₺ (+ for each additional 300,000) will be reported.

In case of message roaming, usage over 50,000₺ will be reported via SMS. For 100,000₺ and above (+ for each additional 50,000₺) and above, the service will be closed when it reaches 300,000₺.

Is it possible to limit your usage to a certain amount?

While the usage of users using the message roaming service is limited when it reaches 300,000₺, it is not possible to limit usage for users using the voice roaming service.

Can I forward calls while roaming? Will I be charged in the country I am visiting?

Yes. The call will be considered as a call to the number you have forwarded and will be charged at the roaming service rate of that country.

How can I get help when I need it while abroad?

Customers with voice roaming service can call 1800-2222 to get free information. In other cases, you can get information by writing an e-mail to customercare@mobicom.mn from your registered e-mail address.

How to search for a network abroad?

If it does not connect automatically, please do the following manual settings:

- Samsung- Menu - Settings - More settings - Mobile networks - Network operators
- Iphone- Settings - Carrier - Automatic - Off
- Nokia - Menu - Settings - Phone settings - Operator Selection - Manual
- Sony Ericsson- Menu - Network service - Network selection - Manual

Will I be charged extra for activating the roaming call receiving service?

There is no additional charge. Every time a call is received and made from abroad, you will be charged according to the roaming service price.

How can I get information about your products and services when traveling internationally?

You can get all kinds of information about roaming services by contacting us through the following channels.

- 1800-2222 special inquiry line
- customercare@mobicom.mn email address
- www.mobicom.mn web page

Are roaming call rates the same in foreign countries?

The rates are calculated according to the operator's call rate for that country. You can get the tariff information by sending a text message with the country name and the first 4 letters to 599.

If I arrive in Mongolia and do not cancel my roaming, will my usage be charged according to the roaming rate?

No. When you arrive in Mongolia, you will immediately enter the Mobicom network and switch to the regular rate.

Will I be charged when calling the operator's reference number?

Depending on the roaming service agreement, in some countries, calls to the operator's reference number and emergency numbers are charged according to the roaming call rate. Also, if a user with message roaming cannot establish a connection, but calls to the number go to an answering machine and listen to it for more than 29 seconds, a fee is charged. This also depends on the operator's roaming agreement.

How can I pay when I am abroad if my service period has expired and I have not paid?

You can pay through the following channels:

- Transfer through your correspondent bank
- Mobicom.mn
- Mobicom branded application
- Monpay application

What steps should the user take when roaming is not working?

First, search for your network, select the Activate Automatic Mode menu from the Global roaming menu, and turn your phone off and on. If the above settings do not work, follow the video instructions below to configure it.

What is the international HiCall 003 gateway?

HiCall 003 is a gateway that uses the latest advanced technology and a dedicated independent voice channel to make calls to more than 176 countries around the world from all types of mobile and landline phones without delay, echo, or lag.

Users of all operators can use the 003 gateway to make HIGH QUALITY international calls and send messages.

Mobile phone settings

If you are experiencing disconnection during a call, please configure the following settings.

SMS CHARACTER ENCODING STANDARD

1. Latin Alphabet Messages

- 1 SMS = 160 characters

2. Non-Latin Characters (Cyrillic, Chinese, Japanese, Korean, Emoji’s, etc.)

- 1 SMS ≈ 70 characters

3. Additional Rule

- If a message contains non-Latin characters, the message is encoded using Unicode, which reduces the character limit.
- **For example:** A message written in Cyrillic with 100 characters will be charged as 2 SMS messages according to this standard.

FAQ

1. What is the default PIN code for a new or replaced SIM card?

The default SIM PIN code is **0000** (four zeros).

2. When do I need to request a SIM recovery service?

You need SIM recovery when your SIM card is not working, your phone is lost, or in any situation where your existing SIM card cannot be used.

3. Is SIM recovery free?

Postpaid and Hybrid customers receive one free SIM replacement per year.

Additional replacements within the same year cost 3,000₮

4. How can I request SIM recovery?

You must visit a Mobicom service center in person and present the required identification documents.

5. How is the bill calculated when I change my package?

When a customer switches from their old package to a new one, the base fee for each package is calculated proportionally based on the number of days used within the billing cycle.

6. How can I make an international call?

You can make international calls using the HiCall 003, Star(*) Gateway, or Hash(#) Gateway. All operator users can use the 003 gateway to make high-quality international calls and send SMS. Mobicom, MNP75, and Mobile Office users can directly call any country by using the “*” (star) button on their mobile phone. To call abroad:

Enter “*” + “Country Code (+Area Code)” + “Phone Number” and press the call button.

For example:

* + <Country Code> + <Number>

For pricing details, please visit:

<https://www.mobicom.mn/service/20>

7. How can I purchase prepaid units?

You can purchase units through the **Mobicom App** by following these steps:

- Open the Mobicom App.
- Go to Easy Services → select “Units”.
- Tap “Buy”.
- Choose how you want to receive the VAT receipt (Individual or Corporate).
- Tap “Continue”.
- Select a payment method from the available options (MonPay or bank apps).
- Complete the payment to finish the purchase.

8. How can I contact your customer service from other operators?

If you are calling from a Mobicom number, dial **2222**.

If you are calling from another operator, dial **1800-2222**.
